Specialty Custom Applications

Our experienced craftsmen showcase their extraordinary talents and the versatility of the QUARIZZ® process with custom specialty artwork created for our esteemed clients worldwide.

The wall decor on the left is a simulation of classic tile artwork that reflects the ethnic theme of Cardenas Market in Fontana, California.

One of our first QUARIZZ® manufactured reliefs simulates an ancient Roman artifact. It was over 30 feet tall and exported to Hong Kong. It is an excellent example of the limitless possibilities of QUARIZZ®.

This modernistic wall relief is yet another example of the versatility that is QUARIZZ®.

It was especially created for and installed in a private residence in Marin County, California.
