- Natural Appearance
- Heat resistant up to 180 degrees
- Odorless
- Impact and chip resistant
- Water and stain resistant
- Resists bacterial growth
- Flexible and shock absorbent
- Easily repaired and maintained
- Ultraviolet resistant
- No toxic chemicals/formaldehyde free

QUARIZZ Stone Table Tops are manufactured from a hard surface stone product that meets the highest standards and are competitively priced. Used for both commercial and residential applications, **QUARIZZ** was engineered and tested to withstand the wear and tear of the most demanding of environments including high volume restaurants, major theme parks, hotels and casinos.

QUARIZZ is bonded to high density high grade wood product to insure strength and versatility. Our skilled artisans use a perfected proprietary process to bond the **QUARIZZ** Stone with sealers to the substrate.

QUARIZZ SURFACE TEXTURES

QUARIZZ is available in two standard surfaces for indoor or outdoor use. Surfaces for outdoor and wet environment usage have a multi-coated application of an industrial strength watertight sealer. Custom surface textures are also available to meet your design needs.
